OFFICIAL PAPER OF THE CITY AND COUNTY

COAL-The Cairo City Coal Company is now delivering Coal at the following low prices: Pittsburg Lump, 121/2c per bushel; Paradise Lump, \$2 25 per ton, and Paradise Nut, \$2 00 per ton. Anthracite (all sizes), and other Coals, very cheap.

HARRY WALKER will run an oyster wagon, delivering oysters in any part of the city. Orders by postal card will receive prompt attention.

NOTICE TO SHIPPERS.—The city of St. Louis has quarantined against the delivery of freights coming from the states of Tennesseec, Mississippi and Louisiana, as well as from Cairo proper. In order to insure delivery at St. Louis, the shipper most furnish a certificate that the freight is not from any of the states named, nor from any infected district. Shippers will please govern themselves accordingly.

James Johnson, G. S. A.

Sun copy. Carno, Ills., Sept. 5, 1876.

THE Cairo City Coal company can sell better coal cheaper than anybody for three sound reasons: It mines its own coal from its own mines; it pays no royalty; and it can and does land it at Cairo at bottom transportation prices. These facts enable it to do just what it says it will do. Parties in Cairo, therefore, can purchase 10 bushels. or one ton, or ten tons at the same figure That 100 tons can be bought. And the prudent housekeeper knows that now is the and lay in a supply of cheap coal.

WOOD AND COAL .- Sensoned wood, Hick-September. Paradise and Big Muddy Coal. Orders taken for fall delivery at, \$2 75 for 1 ton; \$2 62 per ton for 2 tons; \$2 50 per ton for 3 or more.

The readers of THE BULLETIN are aware that we have used some industry in tracking down the many yellow fever lies that have been current here for the past four weeks. They know that we have maintained with persistency, if not with ability, that the disease can not spread here, and we have repeatedly given reasons for the faith that is in us. THE Bulletin is being abused by some parties because it has not joined in a senseless and onr cowardly cry of alarm; in spreading false of duty, and respectfully demand of the reports and exaggerating them; in short in pursuing a course that would ultimately have led to a panic. The Belletin is not infallible, but events have shown that it has been nearer right all along than some of those who malign it, even under the weight that attaches to a professional title. But we have no quarrel with any one for their opinions. What we do object to is the charge made that is not one word of truth in this. man yesterday in reply to one sent from this city, asking how many vellow fever patients were under treatment. It read as follows "About thirty-four new cases," etc. The Hickman operator subsequently explained that there should have been a period after the word "thirty." The contents of the telegram were very generally known, and were the subject of much comment. The omission of the period, it will be observed, makes a very decided difference, and puts a favorable phase on the condition of things at Hickman. Rightly read, this telegram says there are thirty cases under treatment, and there had been only four new cases in the preceding twenty-four hours.
